Date: Tuesday, February 16, 2016 9:25:00 AM

Katie and Ben –

I will make the proposed changes to the Public Notice:

- "Waste" will be changed to "by-product."
- Numbers in parentheses in the table will be changed to negative numbers.
- The dates will be updated to reflect that the notice will be in the Pioneer Press on Thursday.

I will also make a change to the table:

- "Net emissions increase" will be changed to "Net change in PTE."

Please note that the public comment period must end on a business day, so the end of the comment period will be Monday, March 21st.

Katie, I sent Laurie O'Brien the changes. You should be hearing from her later this morning.

Hi Laurie,

Please note - The Sanimax air permit public notice will NOT be published in the St. Paul Pioneer Press on Tuesday, February 16th.

Before publishing, Sanimax has requested some minor edits to the public notice text. Please see the attached redlined document. Sanimax's raw material is not considered waste, so they would appreciate to refrain from using the word "waste" to describe their operations. Additionally, there was a question of whether the table in the public notice showing "PTE and Emissions Increase" could clarify that emissions decreases are shown in parentheses. Is it possible to make that clarification?

If these changes are made to the public notice document the morning of Tuesday, February 16th, the notice can be published on **Thursday, February 18th** in the St. Paul Pioneer Press.

We appreciate your attention to this matter. Please let me or Ben Bertram know if you have any

questions.

Thank you,
