Troy –

There are a number of outstanding issues on the Sanimax project. In particular, I have yet to receive responses to the majority of comments and questions I raised in an e-mail responding to the Supplemental Information submittal (from September 14, 2013). I also believe that the revised modeling has yet to be received.

Lacking this information, I am currently unable to work on your project. If I don't receive the requested information by November 8th, I will pick up a different project. After that point, I will complete the new project prior to continuing my work on your project.

Please let me know if you have any questions.

Richard Cordes, P.E.
