Attachments: NSPS Dc - Updated Highlights.pdf

Dick,

Please see the attached updated highlighted copy of NSPS Subpart Dc. I have changed the way that section 60.40c(c) is highlighted and added highlights pertaining to PM, opacity, and SO2 emissions requirements in sections 60.42c - 60.47c.

I have also un-highlighted sections 60.48c(g)(1) and (3). Sanimax will track each fuel combusted on a monthly basis according to 60.48c(g)(2).

Let me know if you see any other sections that need revisions. Thanks.

Subject: Subpart Dc - highlighted sections

Katie –

After our discussion today, I did another review of the highlighted document for 40 CFR 60 Subpart Dc. I believe that Subpart Dc is incorrectly highlighted. 40 CFR Section 60.40c(c) is highlighted, which would exempt the unit from Sections 60.42c, 60.43c, 60.44c, 60.45c, 60.46c and 60.47c. However, the highlighted exemption applies only to periods of combustion research; portions of the (unhighlighted) sections apply.

For this reason, the applicability of the sections listed above needs to be revisited. Would you be able to review the applicability of this rule and provide me a new highlighted rule by the end of the day on Friday, July 26th?

Thanks.
