**SUMMARY OF FINDINGS**

Hydrophytic vegetation present? <u>    N    </u> Hydric soil present? <u>    Y    </u> Indicators of wetland hydrology present? <u>    N    </u>	<b>Is the sampled area within a wetland?</b> <u>    N    </u>  If yes, optional wetland site ID: _____
Remarks: (Explain alternative procedures here or in a separate report.) NWI polygon within a recently tilled/planted winter wheat field. Hydric soil was observed, but no other indicators are present. Lower down the slope may be wetland, but within the survey corridor this site does not display apparent wetland characteristics.
