RE: Petroleum Storage Tank Release Investigation and Corrective Action
Site: Alex Exhaust, 905 Third Avenue East, Alexandria
Site ID#: LEAK00015656

Dear Ms. Malvin:

On February 25, 2004, the Minnesota Pollution Control Agency (MPCA) staff was notified that a release of petroleum occurred from storage tank facilities that you own and/or operate at the site referenced above.

A recent review of our files indicates that we have not heard from you whether you intend to investigate and, if necessary, clean up the petroleum contamination at this site. We again ask that you respond verbally or in writing to this letter and describe the status of your investigation and/or cleanup, or explain why no action has been taken. You must respond within 30 days of receipt of this letter. Failure to do so may result in reduced reimbursement from the Petrofund and/or enforcement action taken against you by the MPCA.

If you have questions regarding the actions requested by the MPCA, or if you conclude that the release is not from any tank which you have owned or operated, please call me at 651/297-8600. Otherwise, I look forward to receiving your reply.

Sincerely,

Laurie Kania
Project Manager
Petroleum Remediation Unit
Petroleum and Closed Landfill Remediation Section
Remediation Division
