Mr. Mike Berkopec
Waste Management, Inc.
12448 Pennsylvania Avenue
Savage, Minnesota 55378

Dear Mr. Berkopec:

RE: Contaminated Soil Corrective Action Plan Approval
Site: Waste Management, Savage
Site ID#: LEAK00000990

The Minnesota Pollution Control Agency (MPCA) staff has received your Contaminated Soil Corrective Action Plan dated December 20, 1991, documenting the approval of treatment of contaminated soil and additional information relating to the petroleum tank releases at the above-referenced site. The MPCA staff hereby approves this plan.

This approval qualifies you under Minn. Stat. § 115C.09, subd. 2(a)(1) (Supp. 1991) to be eligible for Petrofund reimbursement of eligible cleanup costs incurred up to the date of this letter. Applications for reimbursement must be made directly to the Petrofund. The Petro Board makes the final decision on reimbursement. Reimbursement decisions are based on factors such as the adequacy of cleanup, reasonableness of cost, compliance with notification laws and cooperativeness with the MPCA.

The following technical documents have been received by MPCA staff.

1. An application to treat 100 cubic yards of contaminated soils at the C.S. McCrossan Company was approved by MPCA staff on June 29, 1989.

You will be eligible to apply for reimbursement at several subsequent cleanup stages, provided that the necessary additional investigation and cleanup is conducted. The enclosed MPCA fact sheet "Petrofund Reimbursement Process" outlines these subsequent stages and the necessary submittals required at these stages.

The MPCA requests that the necessary additional investigation and cleanup continue and that the results are submitted in accordance with the following comments:

1. Complete all necessary investigation and cleanup and report the results in accordance with the MPCA document "Petroleum Tank Release Reports" (May 1991) and other appropriate MPCA technical documents.

Mr. Mike Berkopec

2. The completed Remedial Investigation/Corrective Action Design (or Excavation Report, if excavation alone addressed the release) should be submitted to the MPCA no later than 120 days after the date of this letter. If you are unable to meet this deadline, please contact me. Failure to proceed in a timely manner with the necessary additional investigation and corrective action may result in a recommendation for reduction of Petrofund reimbursement.

If you have any questions, you may contact me at 612/297-8613.

Sincerely,

John R. Moeger
Project Leader
Tanks and Spills Section
Hazardous Waste Division
