WASTE MANAGEMENT/SAVAGE	
Site Name	Responsible Party

LEAKSITE REMARKS

7/94 GR: Site transferred to Greg Ruff.

9/26/94 GR: MAILED wakeup letter.

9/30/94 GR: RECEIVED call from Bruce Weaver, Waste Management. He stated that RI report was submitted. After reviewing files, reports were located in a separate accordion file. Closure was requested by RP in 10/91. It appears that several quarters of sampling occurred with very low to no detects. No comments were entered in the data base by previous PMs. Due to the age of this site and the contents of the Oct. 23, 1991, response to the PCA by the consultant Foth and Van Dyke, it appears that the actions taken at this site have adequately addressed the contamination and that any remaining contamination, in my opinion, does not pose a threat to the public or the environment. This appears to also be the opinion of the previous PM John Moeger in his written comments in the file. This file is closed.

End of Remarks
