Dear Ms. Richter:

RE: Petroleum Tank Release Site Closure
Site: Hector Airport
Site ID#: LEAK00003375

The Minnesota Pollution Control Agency (MPCA) staff has reviewed the limited data provided by you in a report dated July 20, 1990, for the above-referenced site. Based on the levels of contamination reported, the MPCA staff will not require additional investigation or corrective action at this site at this time.

The MPCA staff reserves the right to reopen this file and require additional work if in the future more work is determined by us to be necessary. Further, this letter does not release any party from liability for contamination which may actually be present at this site. If you, or other parties later come upon any evidence of greater levels of contamination than have already been reported, you are required to notify MPCA.

Thank you for your cooperation with the MPCA in responding to the possibility of a release of petroleum from a tank at this site. If you have any questions regarding this correspondence, please call me at 612/643-3436.

Sincerely,

Greg T. Oothoudt
