NARRATIVE

Caller is with the Minnesota Petro Funds and is reporting removal of a tank and discovered soil around the tank is contaminated. A septic system was there a long time ago and was removed and a sewer lined was put int. The leak # provided is from 2006. Tank is smashed. Looks like it was cleaned out but was still holding a little bit of water. Looks like it once had diesel in it. An old guy was telling John that there was a 500' well. At one time the well was drilled to 50' and then water in the bathroom smelled like petroleum so they had to go deeper.

L# 3534: Junction Food Fuel - open 10/90

INCIDENT REPORT: TANK

RESPONSIBLE PARTY/PROPERTY OWNER

SITE LOCATION

Name: Jim Curtis
