Subject: ~~LEAK 17141~~ South Central Grain & Energy - Soil Disposal Scale Tickets
Attachments: Waste Management Scale Tickets - Hector.pdf

Nancy,

Glacial Lakes Environmental Consulting, Inc. provided oversight of the disposal of 110 yds³ of petroleum contaminated soils on October 14, 2010.

The contaminated soils were excavated during the May 2009 surficial soil excavation. Contaminated soil was disposed of at the Spruce Ridge landfill in Glencoe, MN. Eight semi end-dump truck loads totaling 196.01 tons completed the soil disposal on October 14, 2010. The contaminated soils were disposed of under Waste Management's manifest/Profile #102103mn. Attached are the Waste Management scale tickets associated with the soil disposal. Let me know if you need any further information.

Thanks,

Terry Sieck
