Nancy,

All of the paperwork is in place, waiting on the hauling contractor to have an opening for the hauling. I asked for an update from Waste Management the middle of last week and have not heard back. Will try again today to get an update on the hauler. Will update you when new information becomes available.

Thanks,

Terry Sieck

Hi Terry

I'm updating files today and was wondering if you could provide an email response letting me know the status of landfilling the petroleum contaminated soil from this site. Last I heard the soil was to be hauled to the landfill the week of August 16<sup>th</sup>.

Thank you,

Nancy
