1. Cleanup Determination: ADEQUATE WHEN COMPLETED

I hereby determine, pursuant to Minn. Stat. § 115C.09, subd. 2(b) (Supp. 1989), that the corrective action designs approved by the Minnesota Pollution Control Agency (MPCA) staff, when fully completed, will adequately address the releases from the sites referenced above in terms of public health, welfare and the environment.

2. Compliance with Applicable Requirements: ADEQUATE

Information readily available to the MPCA staff shows that the applicants have complied with the applicable requirements of Minn. Stat. § 115C.09, subd. 2(c) (Supp. 1989).

The determinations in this report are made solely for the purpose of determining eligibility for reimbursement under Minn. Stat. § 115C.09, subd. 2 (Supp. 1989). Nothing in this site report releases any person from liability and the MPCA reserves the right to require additional work if a corrective action referenced above is later determined to be inadequate.

Dated: September 12, 1990

Richard Svanda
