OFFICE MEMORANDUM

File: #1940

Location: W Ditmar Oil
 (City, Village, Township, Section, Range, County, etc.)

Subject: Tank work

By Whom: Janet Berryhill Date: 5/30/90

Investigation Office Conference Field Hearing Meeting Phone

- Items to be Covered: (1) Those present and/or those interviewed
 (2) Situation
 (3) Further action, follow-up, recommendations

1. Mark Millsop, GME

2. At the tank pull, 2 consultants were present. GME was hired by Ditmar. Delta was hired by Federated Insurance. When they were removing the contaminated soil from the gas that leaked from the fuel line, they encountered very old product. Federated & Ditmar refused to dig out that soil at the time, so although the new gasoline problem has been removed, the old gasoline problem remains. Mark M. thinks the 2 spills can be separated. I told him that if this was so, Mr. Ditmar may be able to get reimbursed for the one he has taken care of at this time. Federated has not yet decided whether they are responsible for the old gasoline problem yet.

The tanks have not been covered with concrete yet. Mr. Ditmar wants to get the ok to do it, but is wondering if he is going to have to dig out more dirt. I told Mark that I would not be able to decide if more dirt should come out without reading the report.
