

MINNESOTA POLLUTION CONTROL AGENCY
TANKS AND SPILLS SECTION

In addition, if one or more of the boxes below are checked please provide the requested information.

- Fully describe the cause of this incident
- Describe the steps taken to contain and clean up spilled material.
Include the times you began and ended each major cleanup step.
- Was there waste material or contaminated soil generated during the cleanup of this spill? If so, how and where were these materials disposed of?
- Fully describe what has been done or what will be done to prevent or better respond to an incident such as this in the future.
