If I remember correctly, they wanted a LEAK number in case the insurance company did not pay for cleanup.

I do not know if insurance paid or not. If you give me the file back I can call and find out.

Hi Kevin-

We assigned this a leak# at the time for reimbursement, no work was needed after spills handled, but I have a note on the DO report indicating insurance may have paid. Do you remember any specifics about this site? Did insurance cover the costs?
