Re: Request to Void Permit for Water Gremlin R&D, Facility ID No. 12300762

Dear Coordinator:

Water Gremlin R&D (Facility) is formally requesting the MPCA void the Option D Registration Permit No. 12300762. The Facility has relocated from its original location in White Bear Lake, Minnesota to a facility next to the existing Water Gremlin manufacturing operations.

With this move, the R&D facility and the manufacturing operations will be located on adjacent properties. Additionally they are under common control under Water Gremlin and are of the same industrial grouping. As such, the relocated R&D facility is considered part of the same single stationary source as the existing manufacturing operations. R&D activities will be incorporated into State Only Air Emission Permit No. 12300341-003 as insignificant activities under Minnesota Rule 7007.1300 Subpart 3.I. as part of the next permit modification or permit reissuance.

Please contact me at (651) 209-9441 or our consultant, Alissa Dienhart Lawler at (651) 294-4594, with any questions.

Sincerely,

Dave Zinschlag
Environmental, Health and Safety Manager
